TERMS

This list supersedes all other lists and previous offers and is subject to change without notice.

ROY CARTER—SEEDSMAN warrants to the extent of the purchase price that seed or bulbs are as described on the container within recognized tolerances. Seller gives no other or further warranty, express or implied.

A packing and postage charge of 60 cents will be made on all orders under $15.00 in the United States. Postage and cost of all consular and phytosanitary forms will be added to all foreign orders regardless of the amount of the order.

Pro-rata deliveries will be made in case of crop failure or shortages.

ROY CARTER—SEEDSMAN shall not be responsible for loss or damage caused by delays in delivery from strikes, acts of war, fire, casualty, inability to obtain materials, or other causes beyond our control.

All invoices are due and payable upon receipt or invoice. Prices quoted are net. New customers may secure delivery on open account after establishing credit.

Complaints on appearance and on the weight of the seed must be submitted within a week from the day of arrival at its destination; those on the germination within a month; those on the trueness of the strain within six months.

db—dried berry cs—clean seed

All seed counts given in this catalog are approximate only.

We are always in the market for tree and shrub seed of all kinds.

If you can't find the seed you want in this list, write us. Some items are highly perishable, available in minute quantities or only by special order, or not listed for other reasons.

Protect seedlings from damping-off!

Pano-drench

Discover how many seeds there really are in a packet . . . then make sure all the seedlings reach transplanting age—by using Pano-drench. Pano-drench prevents and controls damping-off, the disease that permits plants to grow to two-inch height, then kills them overnight. One teaspoon, diluted in 6 quarts of water treats three large flats. Applied like plant food, Pano-drench protection lasts for weeks. Apply either before or after planting. Use also as root dip when transplanting.
